Attractor Animation uses the power of moving pictures, graphics and text to communicate key messages and draw interested prospects into your booth. Cut to a musical soundtrack (or multiple track so it can be leveraged in other situations), when played in the booth, the natural rhythm of the moving images creates the attraction. Whether it is live action, video and text or 2- 3 D animation, Quicksilver has the talent and the experience to bring new energy to your exhibit.

Fully customized animations include your branding and key messages and begin at \$5,000. The requested lead time is two weeks. Please fill out the information below to request additional information.

SmartShow™ is a unique, interactive prospecting tool which addresses two of tradeshow exhibitors' recurring challenges; building booth traffic and qualifying leads.

SmartShow is your own, customized video game which tests participants' knowledge in areas related, or unrelated, to your product or service. As the game progresses, scores are tabulated and animated as on-screen graphics evolve. At the game's conclusion, participants are asked a quick set of qualifying questions before adding their score to the leader board. These "buyer values" qualify prospects for more efficient post-event follow up.

Deliverables include a CD that launches the customized game and a database that collects contact and buyer value information. Please fill out the information below to request a consultation on how SmartShow can demonstrate a measurable increase in booth traffic. Full customization is \$25,000 and the requested lead time is four weeks.

Examples of the above referenced services can be found by going to Oscar Einzig's website at www.oscareinzig.com and clicking on the Quicksilver link located on the homepage.
